00 Profile.

Eight years building *production web & mobile products* across Albania, Italy and Germany. I write code that other people have to maintain, and try to make their week easier — strong on React/TypeScript, comfortable from interface to infrastructure.

SENIOR FRONTEND ENGINEER

- Lead the migration of long-lived aviation tooling from legacy stacks to modern React + TypeScript single-page applications.
- Architect and maintain a shared component library used across multiple internal products, with Redux-based state and strict typing.
- Collaborate cross-functionally with backend, QA and UX teams across distributed timezones; emphasis on accessibility, performance and long-term maintainability.

FULL-STACK DEVELOPER

- Shipped end-to-end web and mobile applications for clients across Italy and abroad — React + Redux on the front, Node.js + MongoDB on the back.
- Built and released React Native applications, including build pipelines and store deployments for iOS and Android.
- Worked in agile sprints with daily standups, code reviews and sprint planning; partnered with designers to take products from Figma to production.
